INTRODUCTION & DEFINITIONS

McCormick Digital Solutions offer a range of advanced functionalities to improve performance, efficiency and profitability of the farmers.

My McCormick – App

Thanks to **My McCormick** you will have **direct access to all McCormick digital solutions**. You can discover promotions and special offers, keep updated about McCormick news and events and look for your nearest dealer.

McCormick Fleet & Remote Diagnostics Management – App

The telematics system that monitors the key tasks of your fleet of tractors:

- Tractor position and parameters such as speed, engine rpm and fuel consumption.
- Data analysis to establish the productivity and performance of each machine and calculate the company's economic margins.
- Remote diagnostics for troubleshooting, reducing downtime and extending machine life.
- Registration of working data to update the work log and maximise performance.

McCormick Farm – App

Platform for managing agronomic data:

- Farm management
- Agronomic models
- Sensor integration
- Prescription maps
- Traceability and Sustainability

McCormick PSM System – Service accessible through RTK system

Precision Steering Management made possible by satellite navigation with RTK correction system such as X25 monitor, to carry out work in the open field to a deviation of only 2 cm from the set course.

McCormick Power Service – Service accessible from My McCormick App

With the McCormick Power Service you will always be in control of the preventive maintenance your tractor needs to keep it running efficiently every day.

Discover the checks that need to be carried out and the necessary spare parts, directly on My McCormick app.

ACTIVATION PROCESS OF DIGITAL SOLUTIONS

For customers purchasing tractors equipped McCormick Fleet & Remote Diagnostics Management and McCormick Farm Pro Pack.

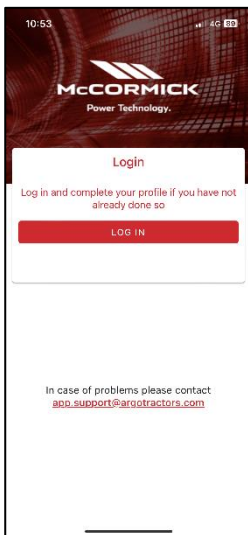

Digital Solutions licences can be activated within **90 days** of the warranty start date, after which they cannot be activated.

1. Download My McCormick App from the stores

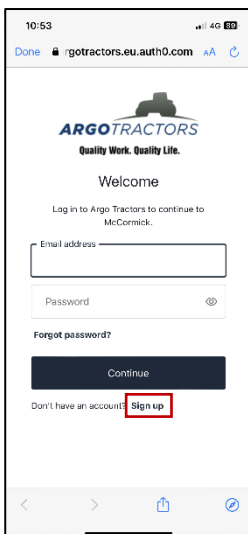

2. Create your My McCormick App account

Open the App and click on Log In.

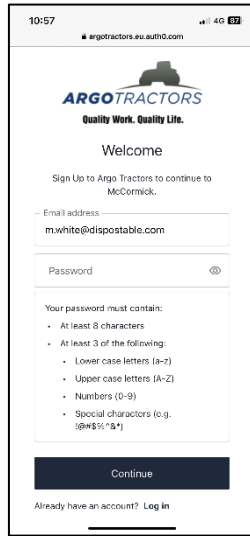

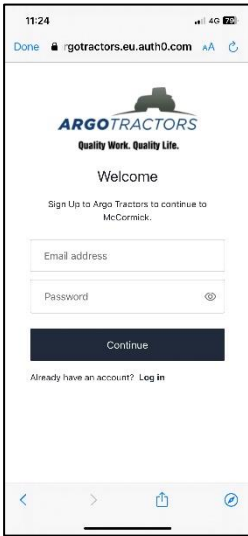

Click on Sign Up.

Register using the email address given to the dealer to enter the warranty certificate.

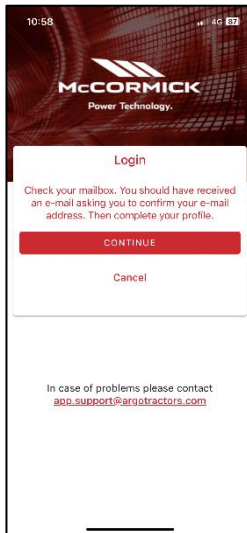

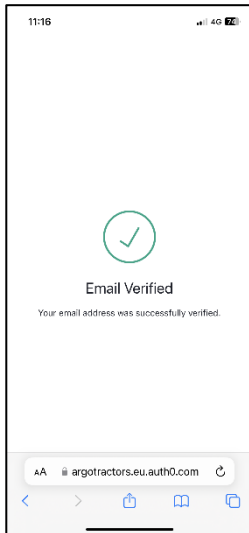

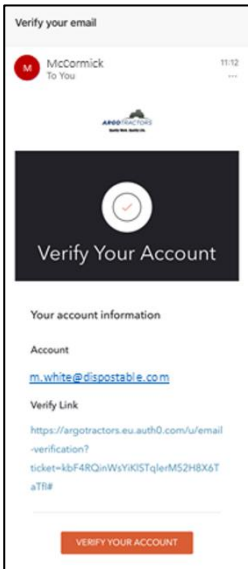

Choose a password that contains:

- At least 8 characters
- At least 3 of the following:
 - Lower case letters (a-z)
 - Upper case letters (A-Z)
 - Numbers (0-9)
 - Special characters (e.g. !@#\$%^&*)

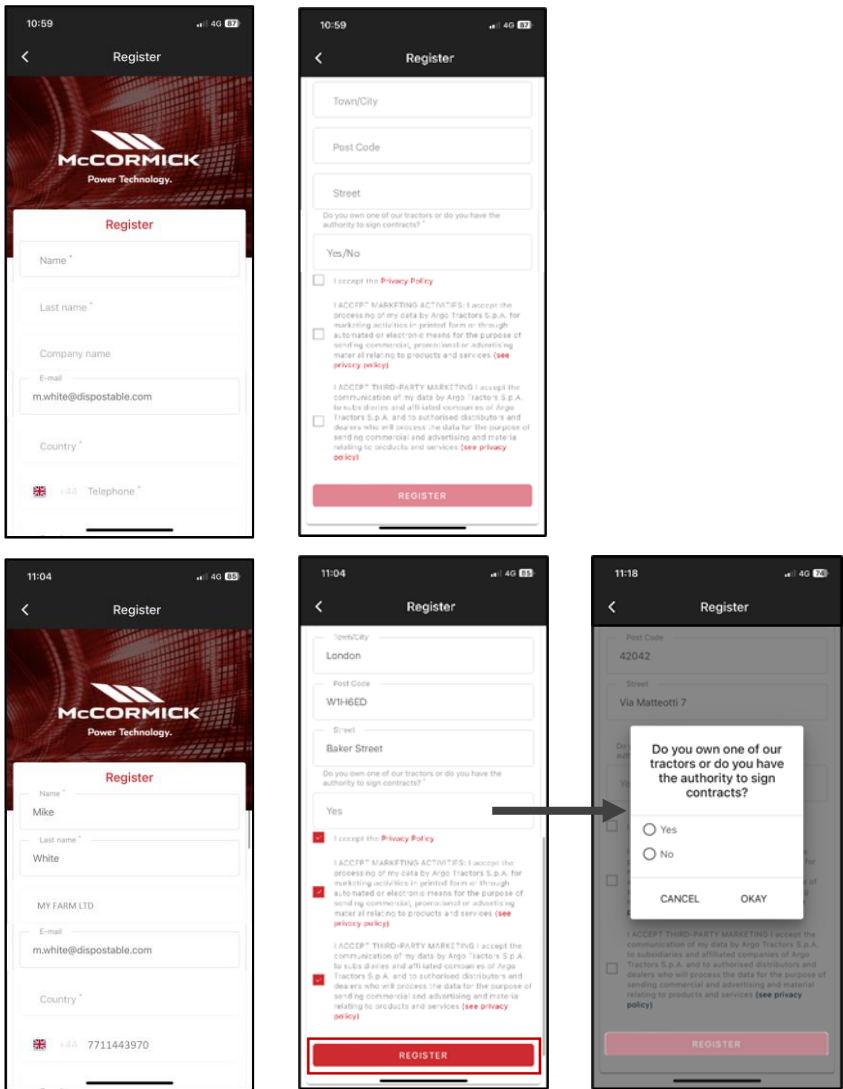

Confirm registration by clicking on the email received to your email address.

Go back to the App and click on CONTINUE.

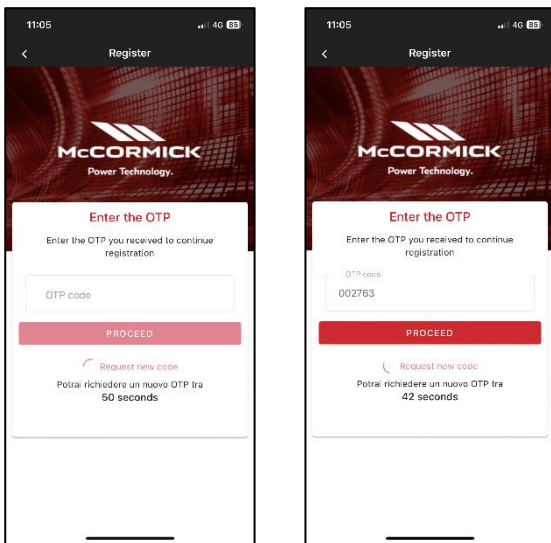

Fill-in all the fields of the registration form: Name, Last Name, Phone Number, Address and answer the question “Do you own one of our tractors or do you have the right to sign contracts?”.

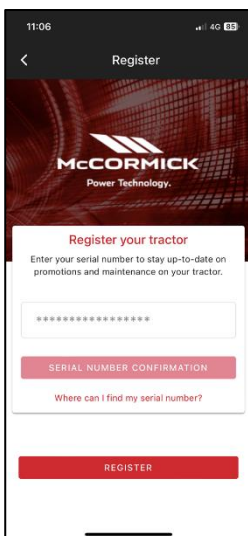

Accepts the privacy policy and click on REGISTER.

Verify your mobile phone number to have it associated to your My McCormick account by entering the OTP received by SMS.

3. Register your new tractor

Register your new tractor by confirming the serial number proposed by the system (automatic match done with email address/phone number of the account and of the warranty certificate) or by entering the Serial Number.

Confirm the tractor model

11:07 4G

< Confirm Serial number Data

Confirm the data relating to the new serial number you want to enter.

Product range
RPE7

Model
RPE7X7.624

CONFIRM

CANCEL

confirm to be:

- the owner of the tractor
- the delegate with authority to sign contracts (with reference to a specific farm)
This functionality gives the possibility to bigger farms to have legal representative to sign the contract (instead of the owner) and to automatically generate a contract where it is stated that who signs the contract is not the owner, but instead someone of the farm with the legal authority to sign the contracts
- none of the 2

11:07 4G

< Confirm Serial number Data

Are you the owner or delegate of the tractor?
Please select one of the two answers

Owner

Delegate with authority to sign contracts

None of the 2

4. Registration successfully completed

Registration of the tractors successfully completed.

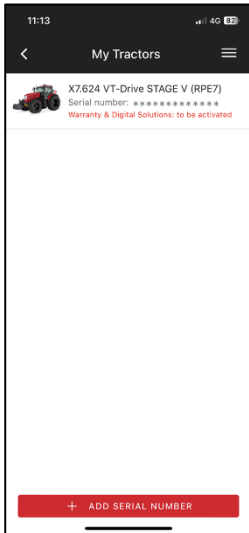

Click on REGISTER to successfully complete the creation of your My McCormick account.

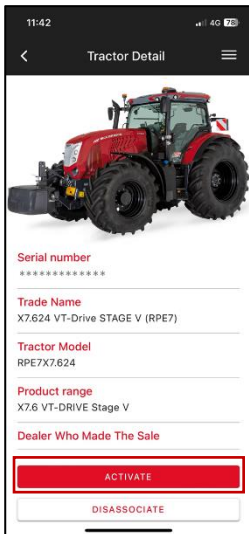

5. Activate the warranty and the licences of the Digital Solutions

Logging into the app you will directly access My Tractors section.

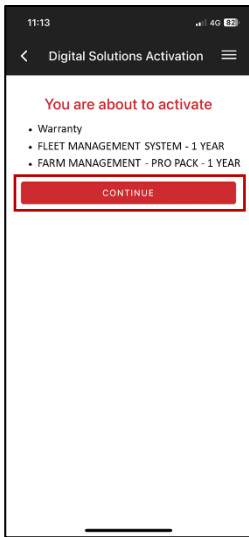

Click on the tractor to view the details.

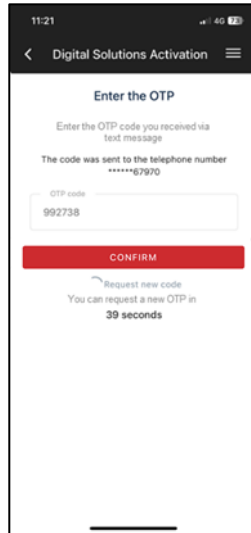

Click on ACTIVATE.

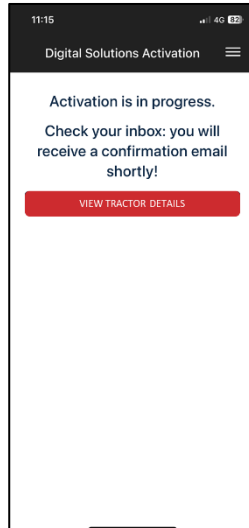

Click on CONTINUE.

Digitally sign the contracts using the OTP received by text message.

You will receive a copy of the contracts by email.

6. Access to McCormick Farm and Fleet Management Activation

The McCormick Farm account is already active.

Download McCormick Farm App from the stores.

Enter McCormick Farm using the same user and password created for My McCormick.

Download McCormick Fleet Management App from the stores.

The Fleet Management account is **not** active yet.

After the activation of the Fleet Management licence (step 5), you will receive an email from noreply@actiaitalia.com.

Click on the link to confirm the activation and set-up a password.

NOTE: Starting from step 7, you may proceed either using your mobile device or your computer.

For better user experience we suggest:

- Step 7, 8, 9, 10: COMPUTER
- Step 11, 12: MOBILE DEVICE
- Step 13: COMPUTER

WARNING: The message 518096 displayed on tractor's dashboard means that Digital Solutions have not been activated. The message will disappear once the activation process is completed.

7. Create your Agrirouter Account

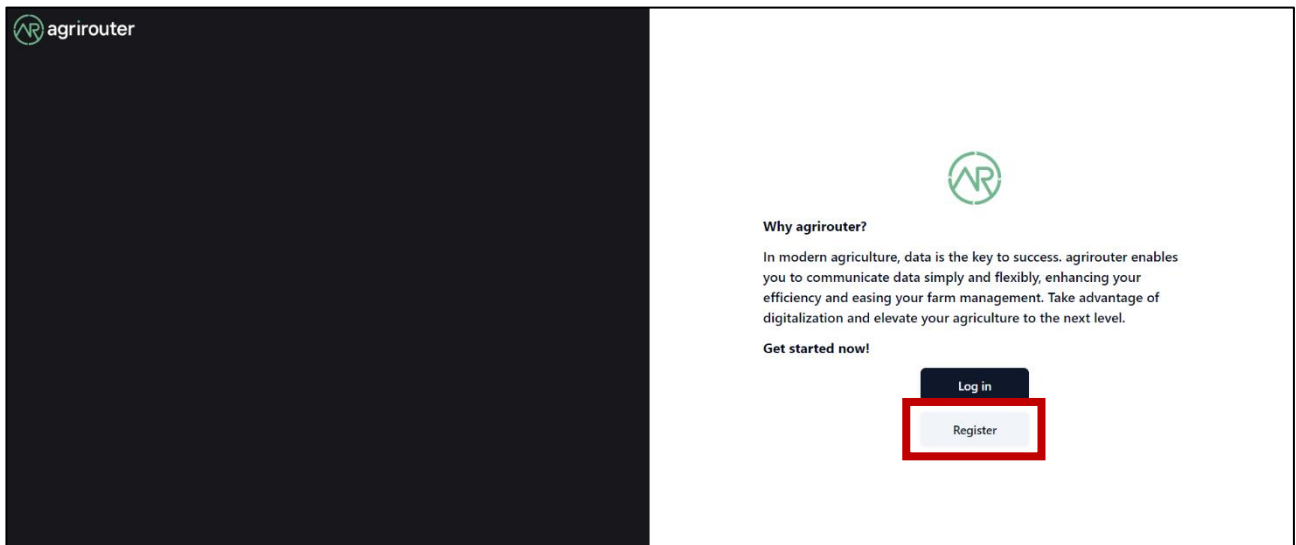

NOTE: If you already have an Agrirouter account move to step 8.

Connect to Agrirouter website (<https://agrirouter.com/en/>).

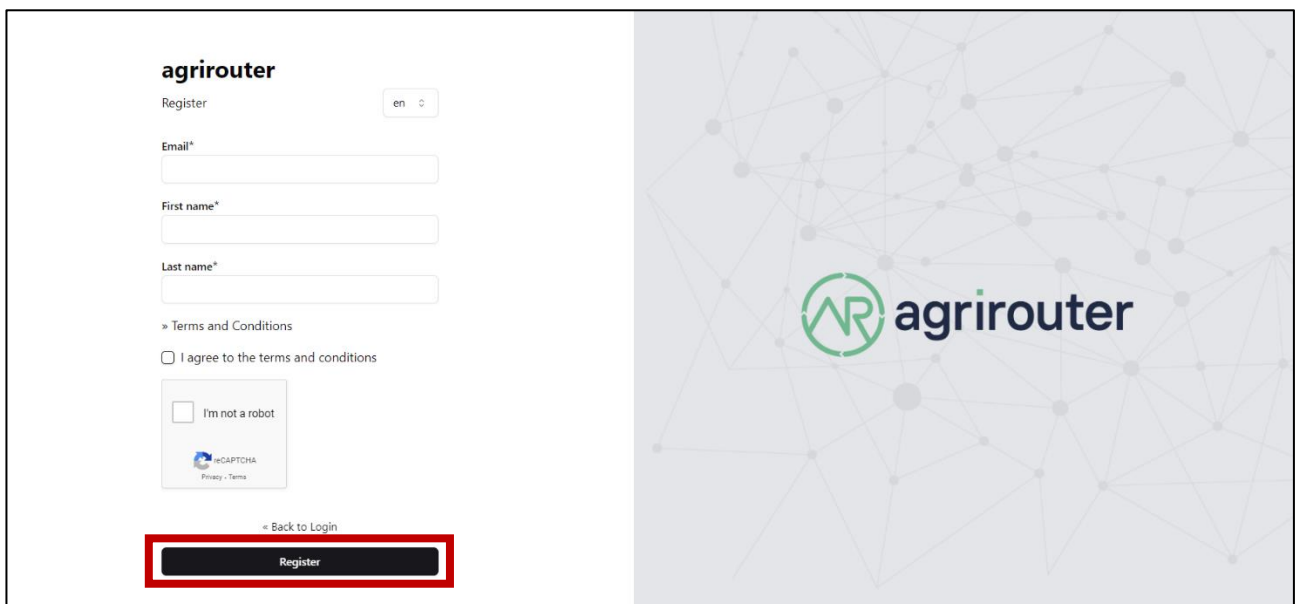

Click on LOGIN.

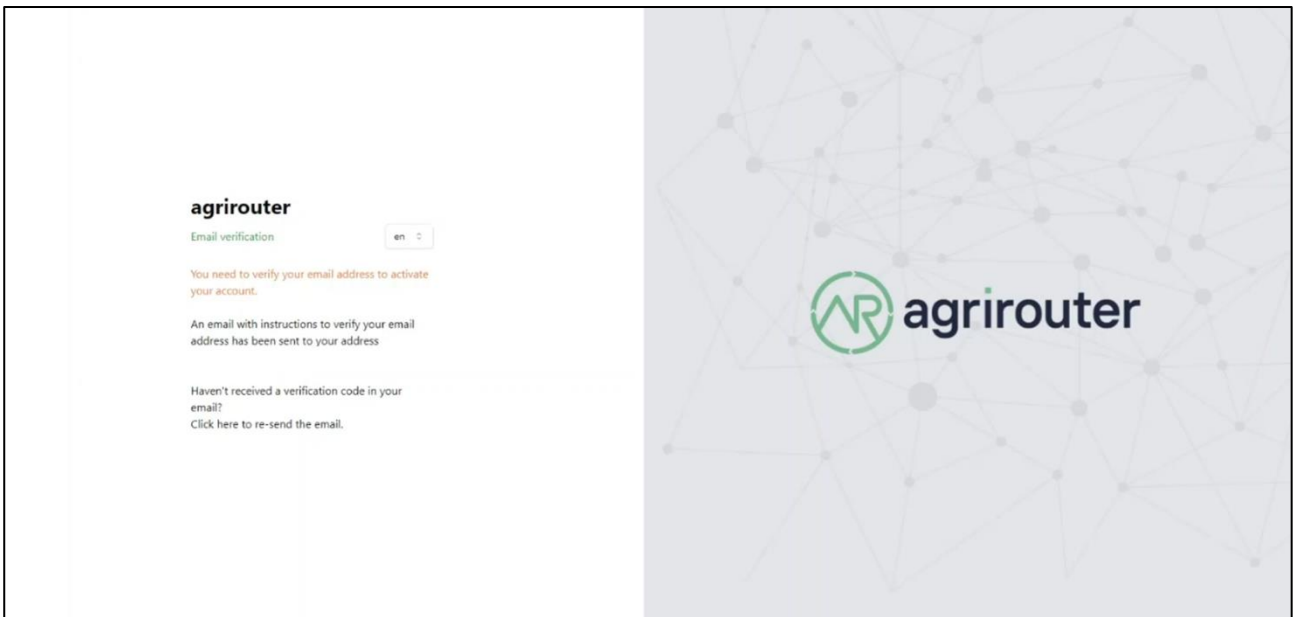

Click on REGISTER.

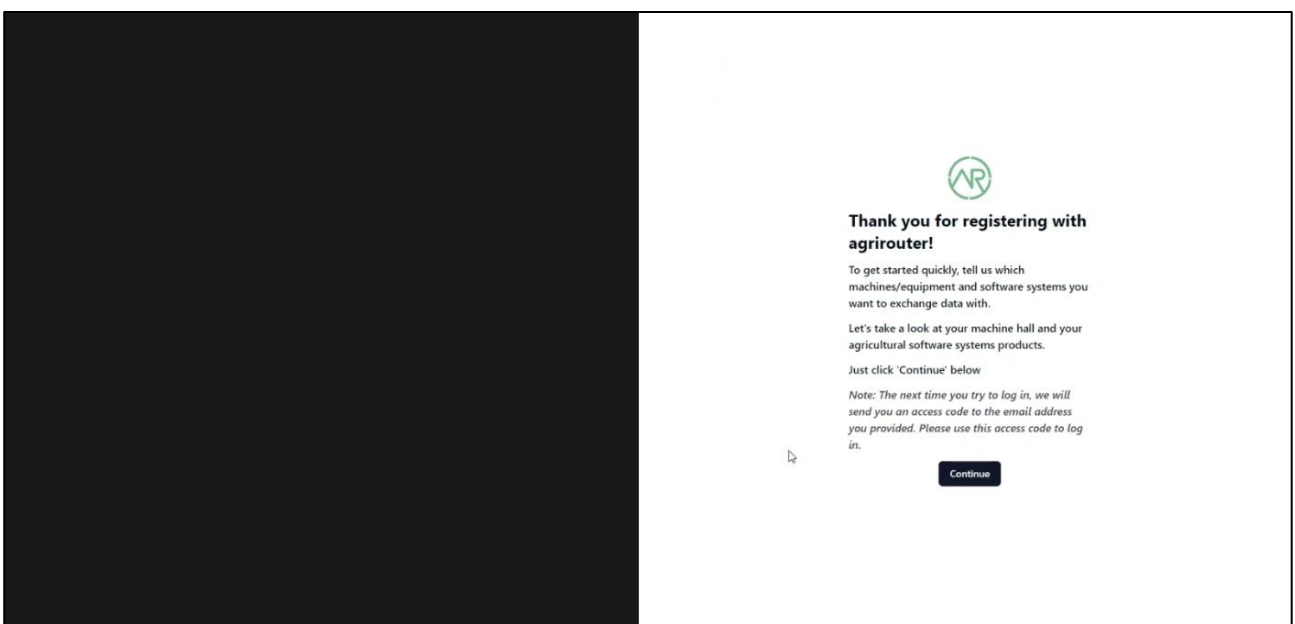

Fill-in all the fields and click on REGISTER.

The image shows the registration form on the Agrirouter website. The form is titled 'agrirouter Register' and includes a language selector set to 'en'. It contains several input fields: 'Email*', 'First name*', and 'Last name*'. Below these fields, there is a section for 'Terms and Conditions' with a checkbox for 'I agree to the terms and conditions'. There is also a CAPTCHA section with a checkbox for 'I'm not a robot' and a CAPTCHA image. At the bottom of the form, there is a 'Back to Login' link and a 'Register' button, which is highlighted with a red rectangular box.

8. Activate your Agrirouter Account

Confirm the registration by clicking on the link received by e-mail

Select Argo Tractors from manufacturers' list.

**Let's first take a look at your machine hall.
Tell us which manufacturer's machines you use**

ARGOTractors x Select a manufacturer...

Select **Argo Tractors Fleet Router Management** from the software's list.

**Next, let's take a look at your agricultural software.
Tell us which software you use**

Agrirouter activation completed.

 Argo Tractors Fleet Route...   

9. Onboard of McCormick Fleet Management on your Agrirouter Account

Log into ARGO FLEET MANAGEMENT PORTAL <https://argofleet.argotracors.com/> (not the McCormick Fleet portal) with your credentials created at point 6.

Click on the icon Agrirouter and then on Registry.

The screenshot shows the ARGO FLEET MANAGEMENT PORTAL interface. The left sidebar contains navigation icons for Manage, Consumption Trend, Farm Book, Faults, Vehicles Maintenance, and Map. The 'REGISTRY' button is highlighted with a red box and a red arrow. The main content area features a map of Europe, a 'Consumption trend' line chart, and a pie chart showing 'Idle working time (h)' at 40.61% and 'Not idle working time (h)' at 59.39%.

NOTE: The activation of Agrirouter integration has to be implemented for the first time only and once, in order to connect Fleet Management platform to Agrirouter. If case you previously onboarded the Fleet Management platform and you need to onboard vehicles only, after clicking on the icon Agrirouter and then on Registry, you can move to Step 10.

Click on Activate Agrirouter Integration.

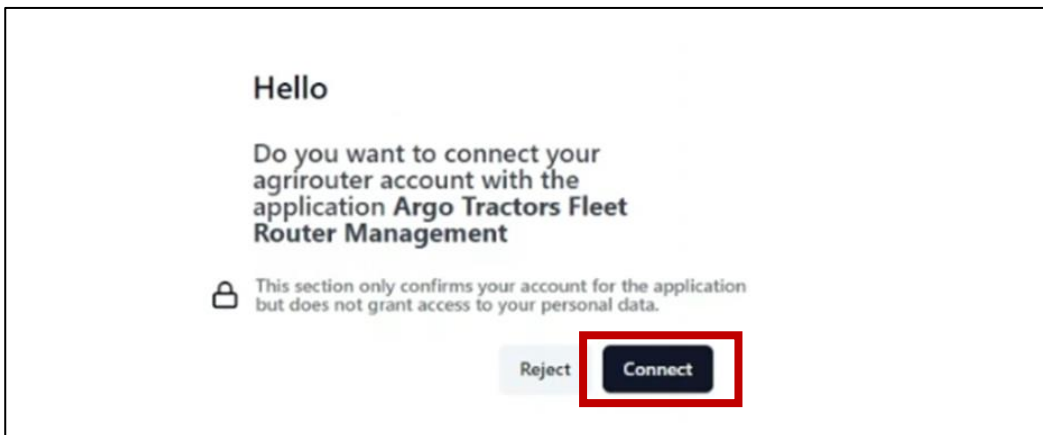

The screenshot shows the 'Activate Agrirouter integration' screen. The 'Activate Agrirouter integration' button is highlighted with a red box. Below it is a 'Devices' table with columns for Device Serial Number, Name, Description, Endpoint Id, and Onboarded In Agri Router.

Device Serial Number	Name	Description	Endpoint Id	Onboarded In Agri Router

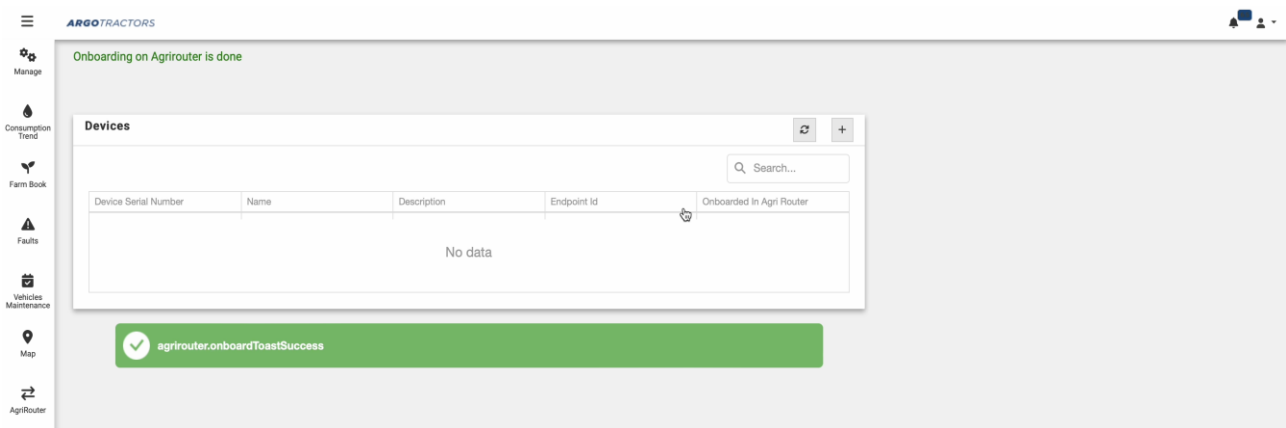

A window of Agrirouter website will automatically open.

Enter your Agrirouter credentials (if the browser you are using did not save your Agrirouter credentials).

Click on CONNECT.

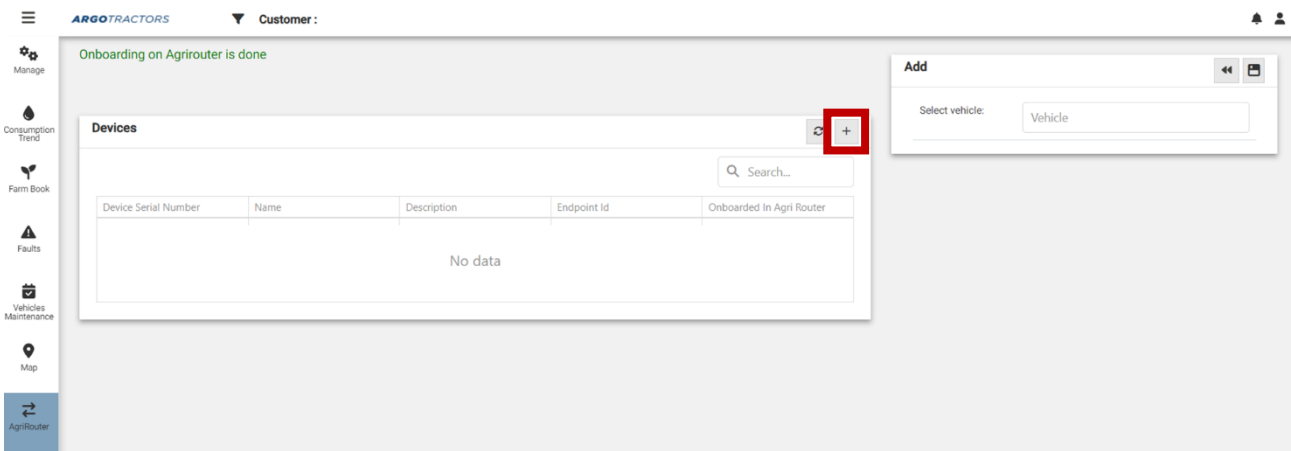

The onboarding of McCormick Fleet Management has been successfully completed.

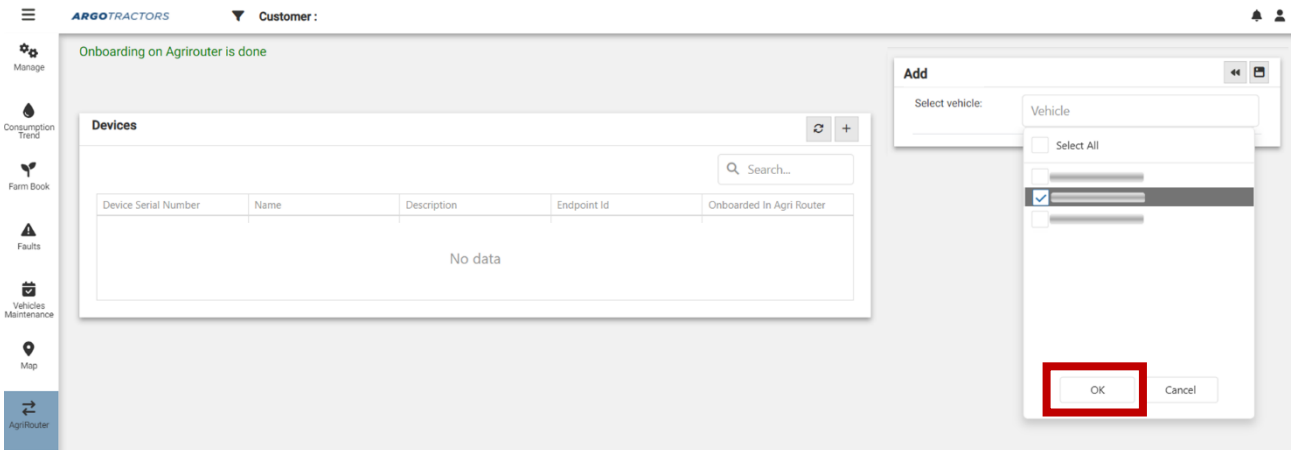

10. Vehicles creation and onboarding on your Agrirouter Account

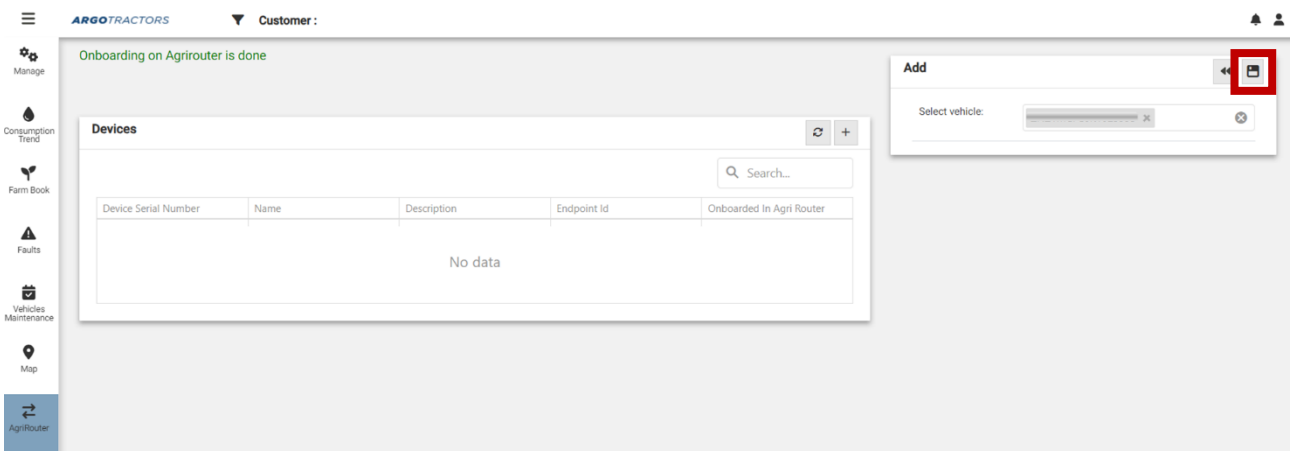

Click on the + icon to add a vehicle.

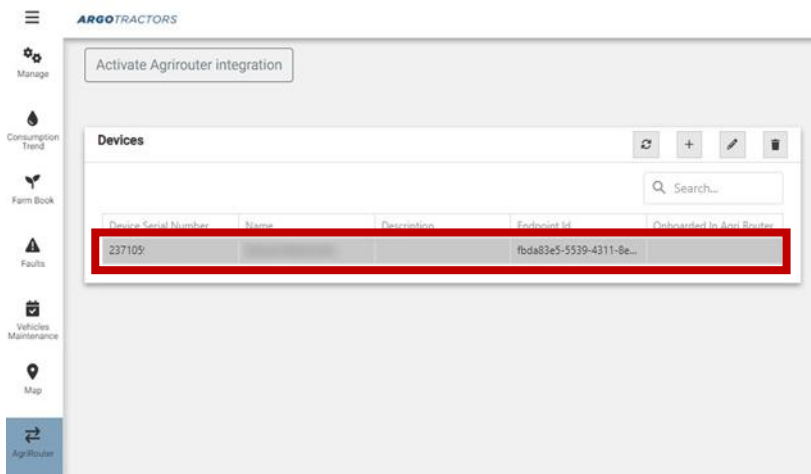

Select your vehicle from the dropdown list and click on OK.

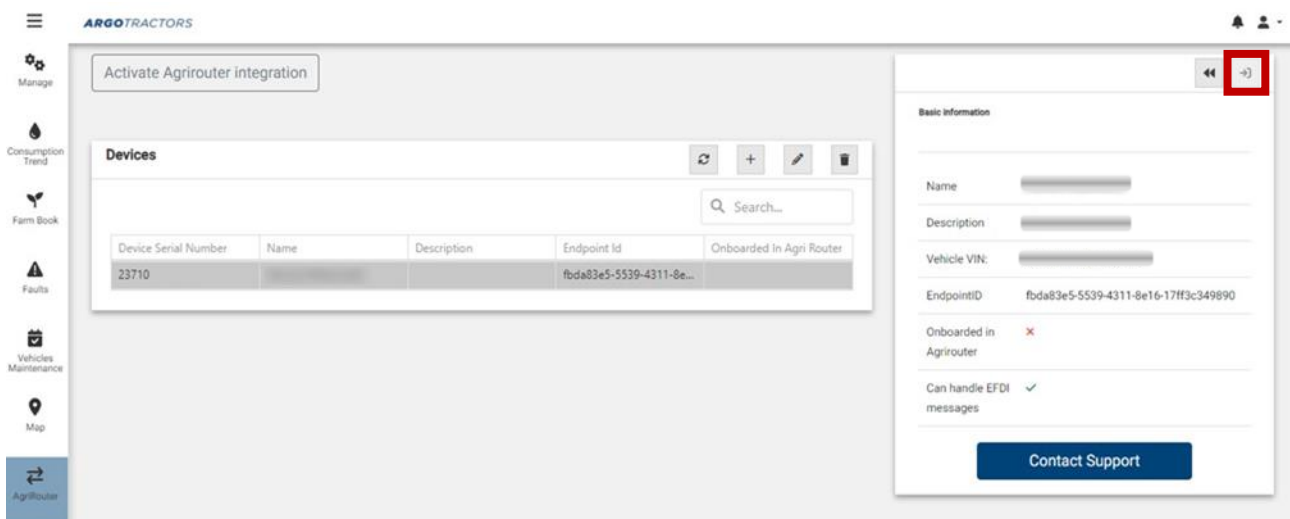

Click on save.

Select the vehicle you have just added.

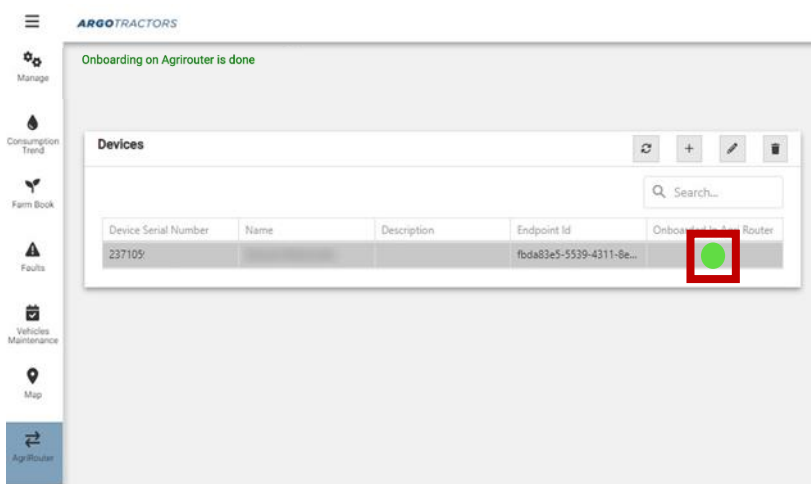

Click on the *on board* icon to proceed with the Agrirouter on board.

The on board is finalized when the green dot appears next to the vehicle.

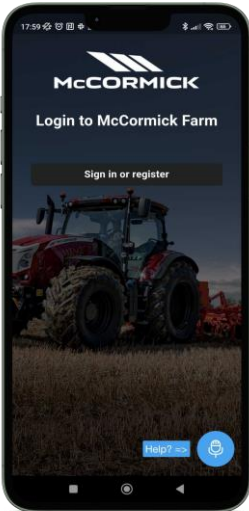

NOTE: It could take up to 60 seconds to complete the vehicle onboarding process.

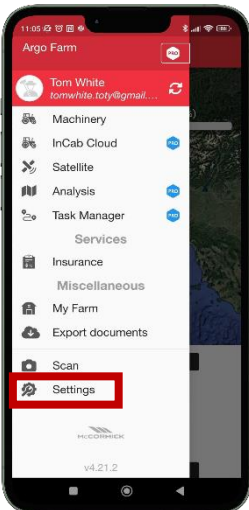

11. Connection of McCormick Farm to your Agrirouter Account

You can perform the steps 11 and 12 from your McCormick Farm App from mobile phone or from your computer connecting to <https://app-mccormick-farm.xfarm.ag/#/login>.

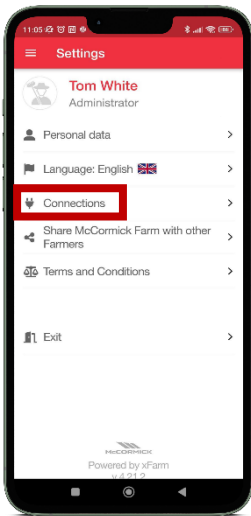

Open McCormick Farm App and login using My McCormick credentials.

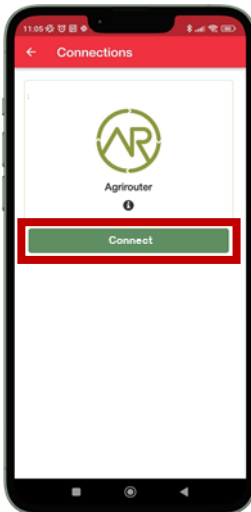

Open the menu and click on Settings.

Click on Connections.

Click on Connect.

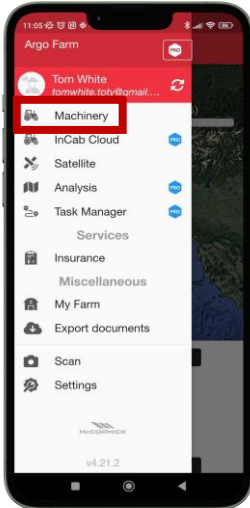

The McCormick Farm account will automatically connect.

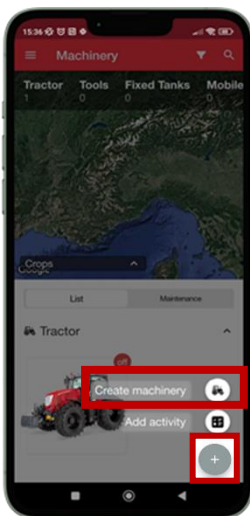

12. Vehicles connection to McCormick Farm

Open McCormick Farm App.

Open the side menu and click on Machinery.

Click on the + button at the bottom right and select Create machinery.

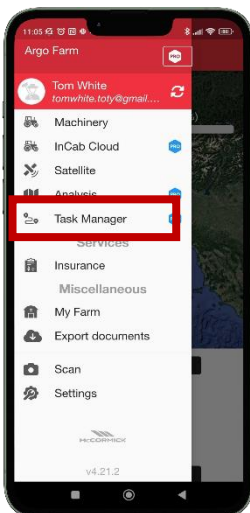

Fill in all the fields and click Create Equipment.

Turn on the vehicle for at least 20 minutes, it is mandatory in order for McCormick app to receive the task and to correctly proceed with the process.

Go back to the main menu and click on Task Manager.

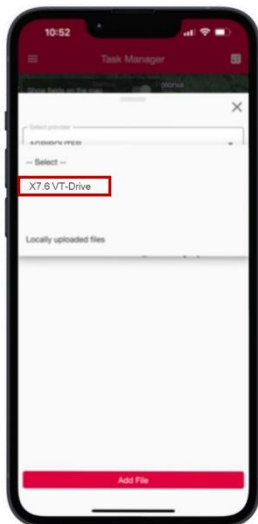

Click on the button at the top right.

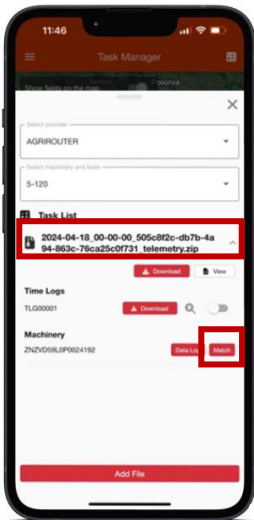

Click on Select Provider and select AGRIROUTER: the dropdown list below will show all endpoints connected to Agrirouter.

Click on Select machinery and tools and select the tractor you want to connect: it has the name you entered in Argo Fleet at step 10 when you created the tractor.

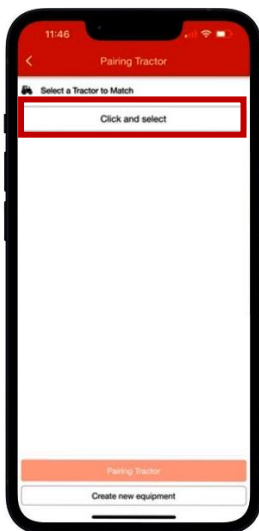

Note: In some cases, the tractor could appear with the serial number and not with the name you entered in Argo Fleet at step 10. If this happens, select the tractor identified by the serial number.

Open the task and click on Match.

Click on the button Click and select.

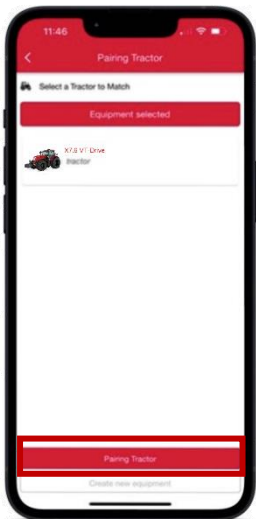

If you forgot to previously create the tractor, you can match the Task and create a new machine directly from this step by clicking on "create new equipment".

Select the tractor you want to connect from the available tractors.

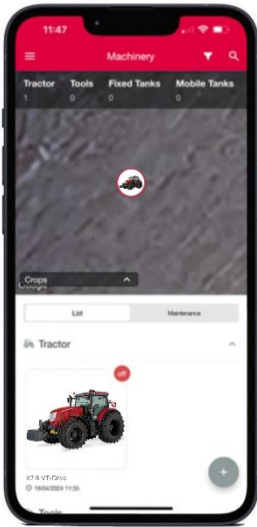

Click on Pairing Tractor.

The vehicle has been successfully connected.

To verify that the connection was successful, go into the Machinery module. The tractor will have an icon on the upper corner, stating "on" or "off" whether if the tractor is working and sending data or not.

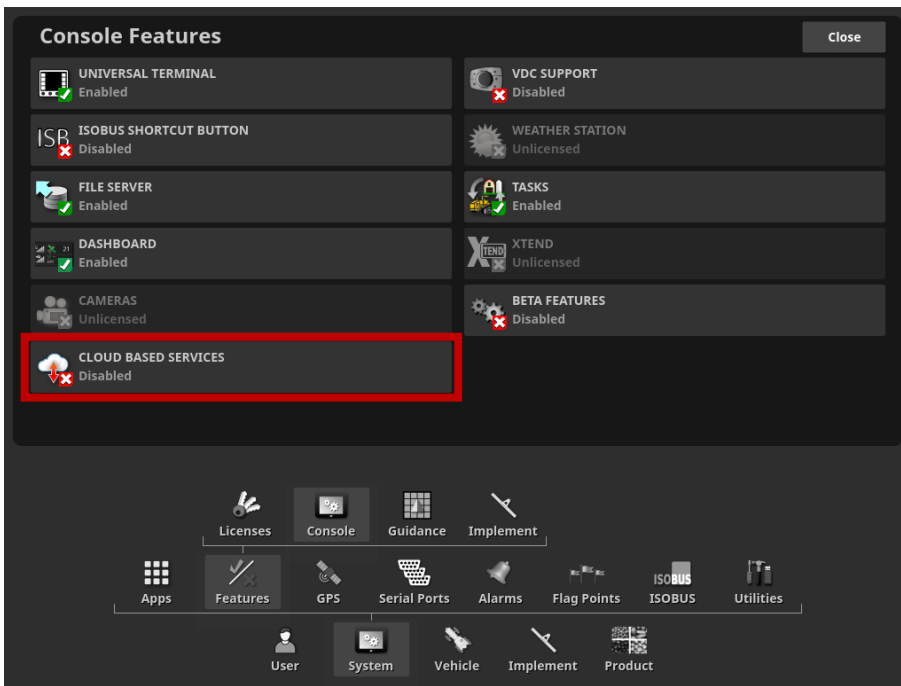

13. Connect your X25 (if available) to your Agrirouter Account

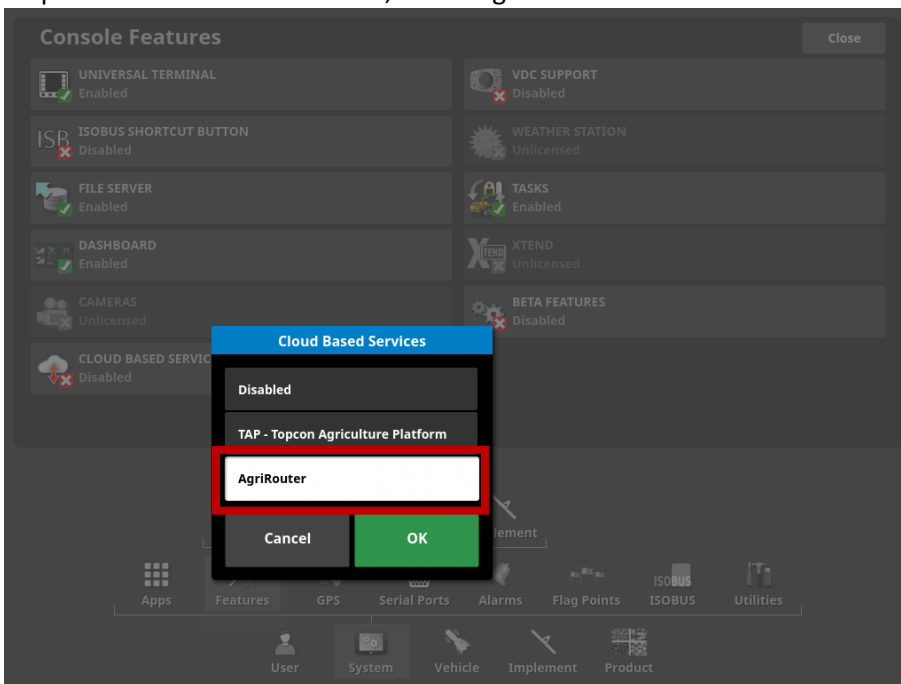

NOTE: To perform the following actions the X25 device must be connected to internet (refer to the X25 manual to know how to make the connection).

From the X25 device, click the icon Cloud Based Services (DISABLED).

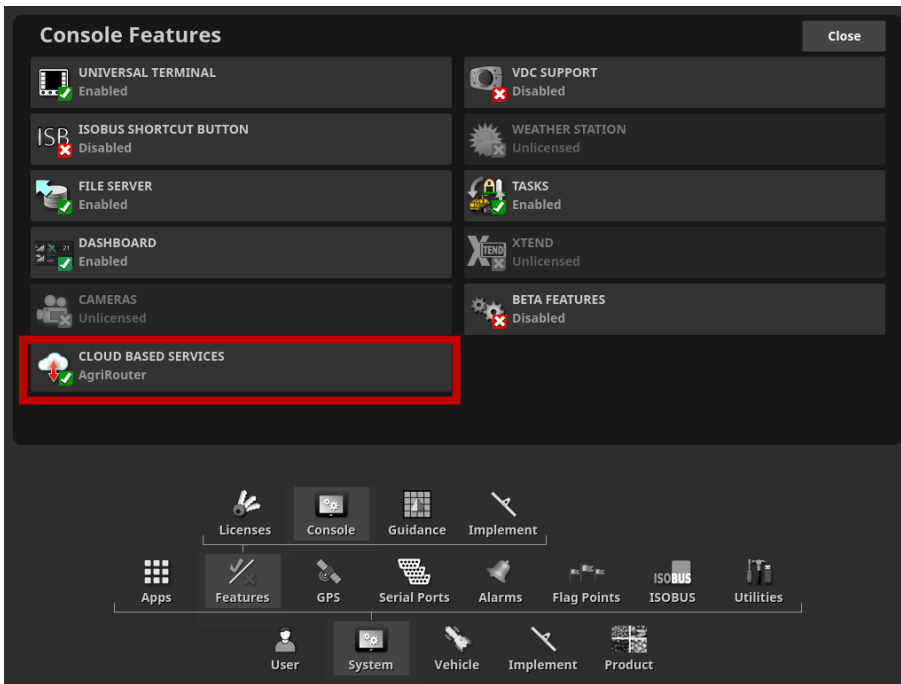

Cloud Base Services require dedicated licence. It is included for factory-fitted X25, for aftermarket X25 contact your dealer for more information.

To proceed with the connection, select Agrirouter.

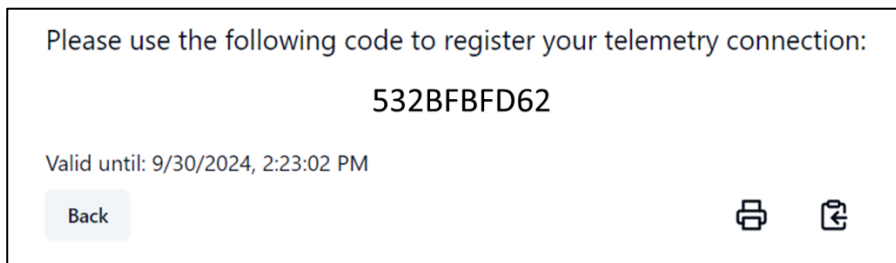

Connection is confirmed when the icon Cloud Based Services turns green (CONNECTED).

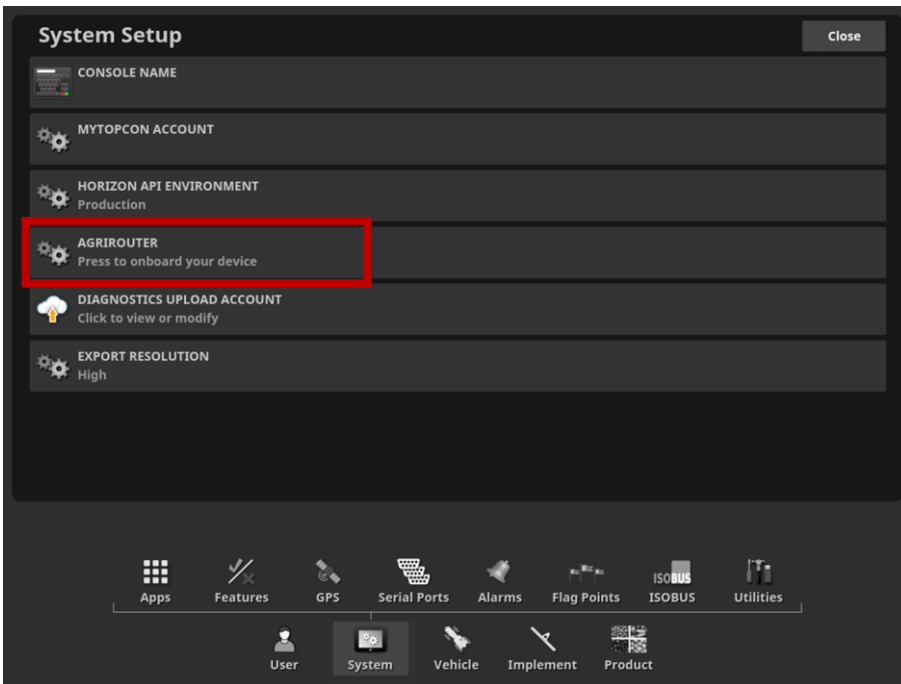

Go to your Agrirouter account and click on Add Connection.

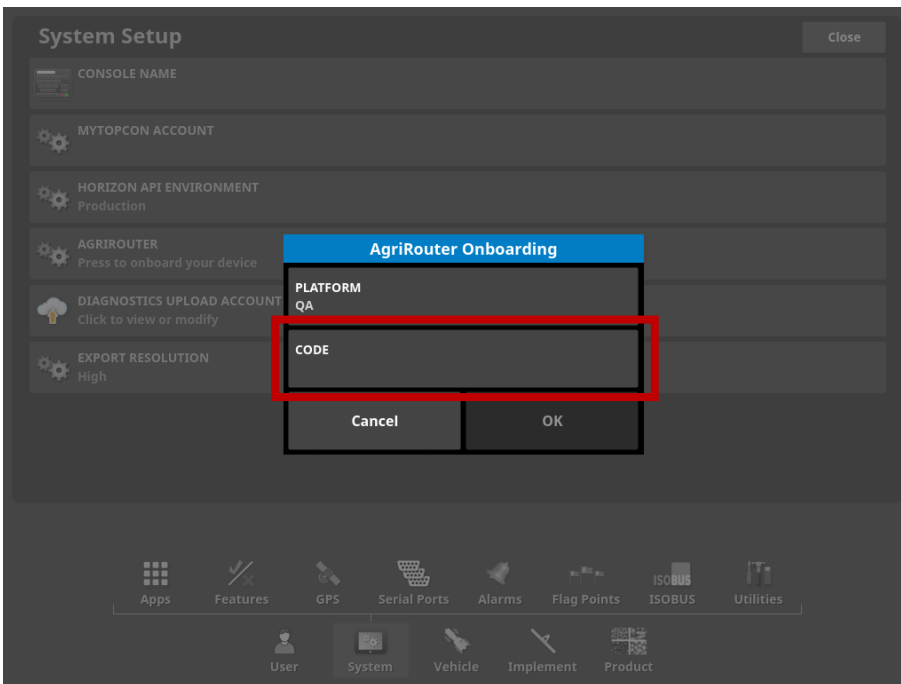

Copy the code that appears to complete the onboard.

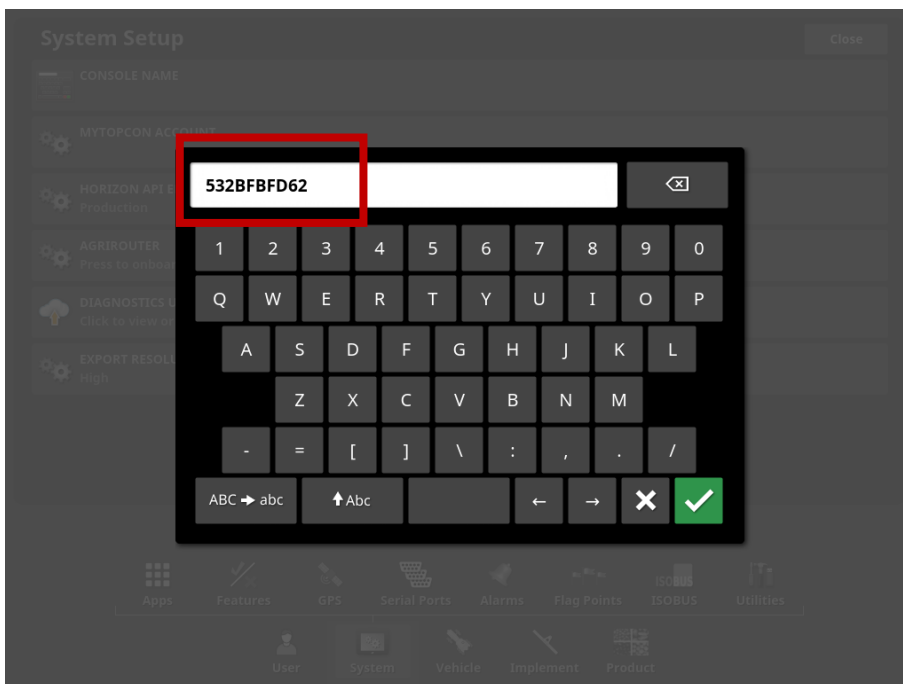

From the X25 device, System Setup, click on Agrirouter to onboard the device.

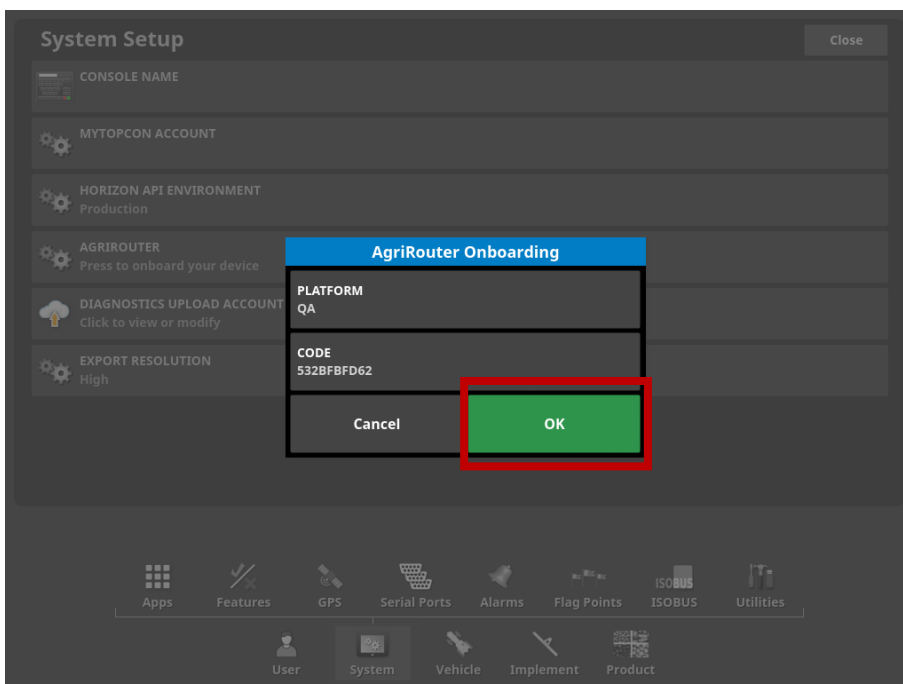

Click on CODE.

Paste the CODE you now display and click on ✓.

Click on OK to confirm.

The activation is successfully done.

You have successfully activated the Digital Solutions.

If you need any support during the process, contact your local dealer.

For enquiries about My McCormick and the activation process write an email to:

app.support@argottractors.com

For enquiries about McCormick Fleet Management write an email to:

atfleetmanager@argottractors.com
